Professional Summary

I'm a Client Technical Support Specialist who enjoys solving real user problems and making technology easier to use. I bring hands-on experience in end-user support, system administration, and cloud environments, and I'm known for clear communication, strong follow-through, and helping teams maintain high service quality, including 90%+ SLA performance.

Technical Skills

Cloud & Infrastructure: Azure, AWS, GCP, Infrastructure as Code (IaC)

Automation & Scripting: Python, PowerShell, Terraform, Vibe/Agentic Coding

Networking & Security: DNS, DHCP, VPN, Firewall Management, Endpoint Monitoring

ITSM & Support Tools: ServiceNow, Salesforce, NICE, Genesys Cloud, Excel Reporting, Visual Studio, Xcode

Experience

Client Technical Support Specialist

10/2025 – Present

Roundel, Target Corporation

Minneapolis, Minnesota, United States

- Provide client and technical support for the Roundel platform, resolving system and user issues to maintain stable day-to-day operations.
- Diagnose, document, and resolve incidents using ServiceNow and Salesforce, improving case clarity and handoff speed.
- Partner with IT and cross-functional teams to escalate and close complex inquiries with clear ownership and timely follow-through.
- Support SLA and customer satisfaction goals through accurate troubleshooting, professional communication, and recurring-issue trend analysis.

Chat & Phone Technical Customer Service

03/2025 – 04/2025

Foundever

United States

- Supported TurboTax users via chat and phone with filing workflows, account setup, and technical troubleshooting.
- Resolved software, login, and connectivity issues while documenting reproducible steps and solutions for faster follow-up.
- Investigated complex communication failures between user devices and applications by replicating issues in test environments.
- Escalated high-impact cases with complete technical notes to improve turnaround and resolution quality.

Workforce Management Analyst (Real Time Analyst)

08/2022 – 12/2024

WTW

Bloomington, Minnesota, United States

- Monitored adherence and service levels for 100+ agents using NICE and Genesys Cloud, maintaining 90%+ SLA compliance.
- Provided hourly performance reporting and developed Excel dashboards.
- Analyzed historical data to optimize workforce allocation and develop long-term staffing capacity plans.

System Administrator

03/2021 – 08/2022

nVent HOFFMAN

Anoka, Minnesota, United States

- Optimized access controls across Azure, AWS, and GCP.
- Automated infrastructure using PowerShell, Terraform, and Python (Infrastructure as Code).
- Provided Tier 2/3 hybrid cloud support and managed enterprise application deployments.
- Monitored system health and authored SOPs for incident response.

IT Support Specialist

09/2016 – 02/2021

MTN Cameroon

Bamenda, Cameroon

- Installed and configured enterprise network devices, supporting 100+ users.
- Troubleshot DNS, DHCP, VPN, and connectivity issues.
- Maintained firewalls and endpoint monitoring, and managed IoT device lifecycle and patching.
